

Vendor Onboarding SOP

Standard Operating Procedure — Procurement & Finance

Document Owner: Procurement Department

Applies To: United States entities (primary) — UAE equivalents noted in brackets

Effective Date: August 2026

Purpose

This quick-reference SOP defines the standardized process for onboarding new vendors, giving requesting departments a concise, step-by-step procedure that ensures compliance, accuracy, and timely activation across all departments.

Scope

Applies to all teams requesting new vendors for procurement, services, or recurring contracts across U.S. offices. UAE offices follow the same workflow with the localized documentation noted below.

Responsibilities

- **Requesting Department:** Completes the Vendor Request Form and submits required documentation.
- **Requesting Department Manager/Director:** Reviews and approves the vendor request before it is submitted to Finance.
- **Finance:** Verifies compliance, reviews documentation, and approves vendor setup.
- **Procurement:** Creates the vendor profile in the system and confirms activation.

Procedure

1. The requesting department completes the Vendor Request Form.
2. Attach all required documents: IRS Form W-9 (or foreign vendor equivalent), banking details, mailing address, and primary contact information. [UAE equivalent: trade license, tax registration certificate, bank details, and mailing address.]
3. The Requesting Department Manager or Director reviews and approves the request before it is submitted to Finance.
4. Finance reviews the submission for completeness and compliance with U.S. tax reporting requirements (1099 status, backup withholding).
5. Finance approves the vendor or requests additional information.
6. Procurement enters the vendor details into the procurement/ERP system (e.g., SAP Ariba, Coupa, NetSuite).
7. Procurement sends confirmation of vendor activation to the requesting department.
8. The requesting department may begin issuing purchase orders.
